Andrew Jackson’s Kitchen Cabinet

During Andrew Jackson’s first term as president, he dissolved his first officially appointed Cabinet over the infamous Peggy Eaton affair and formed a new one. While Jackson always met with his official Cabinet for their advice, both before and after the Eaton affair, he also began to rely on a loose collection of friends, advisors, and newspaper editors that the opposition press nicknamed the “Kitchen Cabinet.” This uncomplimentary term implied that they snuck into the White House through the kitchen rather than the front door.

Of course, no need to sneak in through the backdoor here. You can step right up and get ‘advised’ on your hunger with one of your very own Kitchen Cabinet members. Also, while you’re here, quench your thirst with our world-class fruit tea and refreshing lemonade.
